Results In New Members And Leadership Opportunities

Communication

COMMUNICATION is one of the tools used to reach members and beyond, to the community.

Members need to be informed so that they can reach out.

Unless we reach out beyond ourselves we become insulated and closed.
Your membership will bloom fully when you reach out to your community.

Elevator Speech All members create a brief pitch and reach out to the people you run across in the community. Be prepared.

Branch Activities/Programs

Use this important tool to

To **educate**, to **recruit**, and to **inspire** your members and your community, branch programs need to be mission based. National and State surveys indicate that the mission is the main reason people join AAUW. They also like fellowship/friendships with folks of “like mind.”

- Contact each new member and offer a ride to branch events
- Invite new members specifically to join you at branch activities
- Have greeters at each meeting
- Provide a picture of new members on your website or in your newsletter
- Send welcome letters from the president and membership chair
- Ask new members to participate in a small leadership activity right away – one that fits their skills and personality such as introducing a speaker or bringing food and drink
- More ideas here: <http://www.aauw.org/resource/successfully-initiate-new-members/>

Try Something Different

- **Have an ice-breaker** for some meetings so that existing and new members get to know each other better. Ice breakers can be found on many websites including AAUW.org. at <http://www.aauw.org/resource/how-to-design-meetings/>
- Take advantage of the **Diversity Activities** that are being revised on AAUW.org at <http://www.aauw.org/resource/diversity-and-inclusion-tool-kit/>.
- Change the location/day/time of your meetings so that the location is different, and possibly easier to get to by a different sub-set of your members.
